FMA Forces in Motion Show

Grades 6 through 9 were treated to an interactive, traveling hip-hop concert that teaches Newton's Universal Law of Gravity and Three Laws of Motion. Named after Newton's Second Law of Motion [Force equals Mass times Acceleration], the show connects science and engineering to everyday life. And how studying Newtonian physics can lead to interesting, competitive careers.

We always knew we were great!

According to U.S. News, SICSE has been ranked as one of the top high schools in the state of Utah.

Washington D.C.

Last month 28 SLCSE 11th graders traveled to Washington D.C. On this great adventure students got a tour of the U.S. Capitol, walked the "mall," saw the monuments, explored Mount Vernon, and expanded their knowledge at many museums. Thank you to the SLCSE community for making this impactful experience possible for our students.

SLCSE Seniors!

Seniors Brenda Acosta and Mitzi Genchis are the recipients of the Salt Lake Rotary Club "Service Above Self" scholarships. They will receive a scholarship in the amount of \$2,000 to attend college in 2016-17. The Rotary Club of Salt Lake has been recognizing students in the Salt Lake School District who exemplify service in their lives since 1975.

And what would we do without our amazing faculty (Kelly Haakenson, Ralph Davis, Diane Crim and Matt Smith) who dedicated countless hours to fundraising, mentoring kids, planning the trip and much more

History fair

On April 16, six SLCSE students competed in the State History Day competition. Ruth Brunner competed in Individual Website with an awesome project on the Beach Boy's Brian Wilson. Jeanette Fayed competed in Historical Essay with a moving piece about Rwanda and the United Nations. And finally, Ashwaq Abdi, Sophia Wrathall, Emiko Church and Gilbert Lopez took 3rd place in the state in Group Website, with a project about the Japanese American Internment Camps. Way to go SLCSE historians!
