## Diversity Wall

This display is a small piece of the broader conversation regarding diversity in our school. We recognize that conversations about self-identity, and the many ways we identify ourselves, are complicated. Hearing each other talk about these sensitive and intricate topics builds empathy and allows the broader school community to support each other and empower one another. This display highlights recent conversations in classes regarding immigration, heritage, and identity within the global community. Thank you to our students that authentically and respectfully discuss subjects such as these and many, many other topics.

## Washington D.C.

Twenty eight SLCSE 11th graders traveled to Washington D.C. over Spring Break. On this great adventure, students got a tour of the U.S. Capitol, visited the National Archives, learned how to ride the Metro, walked the "mall," saw the monuments, explored Harper's Ferry and Gettysburg, and expanded their knowledge at many museums. Thank you to the SLCSE community for making this impactful experience possible for our students

## SAGE Testing continues

The SAGE testing provides feedback to students, parents and teachers on what your student has learned this year. Please support your student by helping them get to school on time, ensuring that they have a good night's sleep and encouraging them to start each day with a healthy breakfast.
