

## Logan Lees Develops an App! Stats and Probability Calculator

By Sam Drown

- Q: Why did you create the app?  
A: Because it would help me in all of my classes.
- Q: What does the app do?  
A: The app calculates the probability of something happening.
- Q: How much money have you made off of it?  
A: About 20 bucks because I have now made it free.
- Q: What is your next app?  
A: A barcode scanner and budget calculator app.
- Q: What will this new app do?  
A: Scan barcodes and calculate if it is over budget or not.

Part of the newspaper staff doing some research about the neighborhood businesses such as Chubby's.

(Continued from page 3)

Question: How many players do you have right now?

Coach: Right now we have 18 boys and 22 girls.

Question: When and where do you hold practices?

Coach: On Mondays and Wednesdays we have practice in Glendale Middle School in Glendale, on Tuesdays and Thursdays we have practice at SLCSE in Rose Park.

Question: What league are you in? What other teams do you play?

Coach: We are in the recreation club and we play other schools?

Question: Have you won a lot of games?

Coach: We have won more games than lost so yes we have.

Question: Do you need more girls to join?

Coach: We need both girls and boys!

Question: Is there anything else you would like to tell us?

Coach: Most people think that our soccer teams focus ONLY on soccer but in reality that is not the truth. We get permission from their parents to take a look into their grades and we help them with their grades if they are low. We also have family building activities. Once a month we

have the parents of the kids do a fun activity that helps the community. Like once we cleaned up the Jordan River and that taught them how balance in a kayak as well as spend quality time with their children.

## SLCSE Mountain Bike Team Interview with Kate Nebeker

By Sophia Wrathall

The SLCSE Mountain Bike team has been a team for four years. Currently there are 10-15 members and plenty of room for more!

Do you have to own a bike?

No, you can rent a mountain bike from the school, or bring your own.

When and where do you meet?

We meet here at SLCSE. In the summer, we meet 1-2 days per week and go biking on nearby trailheads.

During school we meet 1-2 days per week after school. There is a trailer that makes transporting the bikes easier.

When and where have you competed?

We compete against other high schools at different trailheads on Saturdays.

Can students still join? If so, who can they contact?

If students want to join they should talk to Mr. Hamilton. You would begin practicing with the team during the summer to prepare for the competitions.

The bike team is really fun! We would like more girls to join the SLCSE team. We encourage you to do well but it's mostly about being active outside, meeting new people and enjoying riding bikes! For more information, visit: [www.utahmtb.org](http://www.utahmtb.org).

## The SLCSE Archery Team

By Emma Uribe

The SLCSE Archery team was pretty awesome and if you want a fun learning experience then I think that the archery team is good for you. What I learned from being on the team is that if you believe that you will hit that target chances are you just might hit it. Also a plus for being on the team is you can make new friends and get to know people better. Archery seems hard at first but really it's not. Before you decide whether you like it or not, you should give it a try. Another good thing about the Archery Team at SLCSE you are taking "A Healthy Risk" at something that you might not do in your daily life. I hope that you will consider joining the Archery Tem next year because it is pretty fun!

## SAA goes to Escalante Elementary

by Simone Nicole

Every third Wednesday of the month Social Action Association (SAA) walks to Escalante to do a science project with the After School Program. This time we split into two groups and went to different classes. Each group made putty with the after school kids. Working with younger kids was fun because of their reactions when the putty came together. Most of them were grossed out at first, but then they were really excited and happy to have their own putty to keep.

### DIY Putty

by Simone Nicole

#### Materials

- Bowl
- Cup
- Spoon
- Measuring cups

#### Ingredients

- Borax
- Water
- Glue
- Food coloring

#### Instructions

- Mix ¼ cup of glue with ¼ cup of warm water
- Add two drops of food coloring and mix
- In a separate cup mix 1 cup of warm water with 1 tsp of borax.
- Stir until the borax is dissolved.
- Mix the solution of borax and water into the glue until you see it combine into putty.

Have fun!

## Jordan River Cleanup

By Jaynie Velasquez

SLCSE will be having a river cleanup and it will be on March 11th, Friday at 10:15 - 12:30.

Mr. Eaton's advisory and bike shop class will be going to the Jordan River to pick up trash and takeout anything that doesn't belong there. We are hoping that one day it will look like it used to.

Rick Grimes Sketch By: Emiko Itamura

## The Walking Dead

By Emiko Itamura

The drawing is a sketch of Rick Grimes from the TV show the walking dead. The Walking Dead is a show about a group of survivors from Georgia trying to survive in a world practically covered in zombies or "walkers". This show started in October 2010, while the comic that it's based off of (also named The Walking Dead) was released in October 2003. Both the show and the comic are still going, the comics are at issue number 152, and the show is at season 6. Overall, it's a really interesting show and you should check it out. (Just make sure to check with your parents first)

## The Signs as Annoying Spring Things

By Ashwaq Abdi and Emiko Itamura

**Aries** (Mar 21 - April 19)  
Your parents expect you to go outside just because it's above 32 degrees

**Taurus** (Apr 20 - May 20)  
Rain. Lots of it.

**Gemini** (May 21 - Jun 20)  
Mosquito bites

**Cancer** (Jun 21 - Jul 22)  
Cold in the morning, hot in the afternoon

**Leo** (Jul 23 - Aug 22)  
Flip flop tans

**Virgo** (Aug 23 - Sept 22)  
Bugs start to come back out

**Libra** (Sept 23 - Oct 22)  
School testing

**Scorpio** (Oct 23 - Nov 21)  
School's almost out but teachers keep assigning homework/giving tests

**Sagittarius** (Nov 22 - Dec 21)  
Daylight Savings time

**Capricorn** (Dec 22 - Jan 19)  
April Fools Pranks

**Aquarius** (Jan 20 - Feb 18)  
Humidity

**Pisces** (Feb 19—Mar 20)  
Allergies

## SLCSE Girls Soccer Teams

By Jaynie Velasquez & Ashwaq Abdi

Question: How long has SLCSE had a soccer team? Was it your idea?

Coach: We started up the SLCSE soccer club last year. My son and I came up with the idea and we decided to carry through with the idea.

Question: What is the name of your team?

Coach: The girls' soccer teams name is called "The SLCSE Diablas" and the boys' soccer team is called "The SLCSE FC". FC stands for football club.

Question: Can any age/grade join your team?

Coach: Since SLCSE is a 6-12 school, anyone can join.

Question: Do you have any previous experience playing soccer?

Coach: Yes. I have been playing soccer all of my life. I started kicking a soccer ball since the time I could walk.
