Senior Spotlight

Seniors, **Isaac Christensen** and **Luke Kleinman** will both attend the University of Utah next year.

Taylor Durham will be attending Humboldt State University. As will **Benny Anjierwerden**.

Ruth Brunner
will be
attending
Columbia
University

UPCOMING EVENTS

MAY 22 @ 8:30AM

Eleventh grade parent meeting

May 24

Short Day

MAY 25 & 28

No School

MAY 30 & 31

Middle School Drama

Performances of **Peter Pan**

MAY 31

Bike Auction

Advanced Science Research Class

Now that science fair competition season is over, Advanced Science Research students have been taking their experiments on the road. They were tasked with adapting their very sophisticated and complicated science into a lesson that could be accessed by much younger students. And to make it even more challenging, the lesson had to be adapted for multiple different grade levels. We are grateful to Newman Elementary, Escalante Elementary, Pacific Heritage Charter School and Rose Park Elementary for allowing our students to try out their lessons on their students.

BIKE AUCTION

Want bikes for low prices? Only on May 31st at 5:30 pm at the Salt Lake Center for Science Education, we are having a bike auction. We have children bikes, high schooler's bikes, and adult bikes. While at the auction, you could stop by our bike-blender smoothie stand.

Hey, we kind of need some more bikes to sell, so, if you have some bikes that you don't use anymore, please donate!!!

Remember, we need them **BEFORE** May 29. And as an added bonus you could stay to see the presentation of Peter Pan.

END OF THE YEAR

For those families that are new to SLCSE this year, we wanted to tell you about our plans for the last weeks of school. At SLCSE every student participates in an end of year science project that vary according to grade level. For example, 6th graders participate in a Science Fair project, 9th graders complete an engineering project and 11th graders take part in a Citizen Science project. On Tuesday June 5, all students present their projects to the school community in a big celebration of achievement. We believe that students should be engaged in a rigorous and stimulating curriculum right up until the end of the year. Please ask your student what they are working on for their end-of-year project, encourage them and celebrate with them.

On Wednesday June 6, the last day of school, there will be a school carnival, our traditional talent show and yearbook signing.

SLCSE Scholarship Award

We would like to congratulate Bri Slaughter on writing the best essay in response to the SLCSE Scholarship prompt "How will you take your SLCSE experience to college?" Bri was awarded \$500 towards college expenses, renewable for a second year.

School Security

We have made some changes to security at SLCSE that we wanted you to be aware of. At the start of school all doors will be locked, if you need access there is a buzzer on the far right door that you will need to press. Please remember that it is required that you check in with the office before proceeding.
